

## Bottom Painting

Paint bottom w/antifouling paint over existing paint that is in good condition<sup>1</sup>

Our painters sand the bottom, remove minor loose or flaking paint, wipe the surface with solvent, mask off the waterline, transducers, zincs, etc., and roll or spray the specified paint or equivalent paint of the same color. We complete the job at launch by painting under the cradle supports and keel pad. *All prices are per linear foot and include paint, equipment and labor.*

### SAILBOATS

	<b>Bottomkote NT or equiv.</b>	<b>Micron CSC or equiv.</b>	<b>VC17 Sprayed (*2 coats)</b>
22' to 29'	\$ 20.80	26. 0	2 . 0
30' to 34'	22.80	28. 0	26. 0
35' to 39'	24.70	30. 0	2 . 0
40' to 44'	26.70	3 .2	29. 0
