# Sailboat Mast Rigging Details

## Mast Stepping and Rigging Explanation of Services

### For Boats Stored with the Mast Removed

#### **COMPLETE PACKAGE.** . . *Prep, Step, Tune & Complete Rigging*

Includes moving boat and mast to mast stepping area, basic inspection, wipe down mast, installation of spreaders, lighting check, installation of masthead gear, stepping mast, tune rigging, pin and tape turnbuckles, install boom, rig mainsheet traveler, rig roller furler system and organize running rigging.

#### **PREP AND STEP MAST**

Includes moving the boat and mast to the mast stepping area, basic inspection, wipe down of mast, installation and taping of spreaders, lighting check, installation of masthead gear, stepping mast, and hand tightening of standing rigging. No tuning, pinning or taping of turnbuckles is included.

#### **MAST STEPPING SERVICE ONLY** – Owner to Prep and Tune

The owner prepares the mast for stepping including all rigging on correct sides of spreaders with proper shrouds attached to the spreader tips. The owner then completes the tuning and other details after our riggers have stepped the mast.

### Services for Boats Stored with the Mast Up

#### **Install Masthead Equipment**

This service is appropriate if your boat was stored with the mast up, and the masthead equipment was removed and needs to be reinstalled. Masthead equipment is routinely installed upon stepping the mast if your mast was unstepped for storage.

#### **Tune Mast Rigging Only**

Check/adjust mast column straight. Adjust rigging tension. Pin and tape turnbuckles.  
Note: *Additional adjustments may be required after boat is sailed under heavy weather.*
