

SAILBOAT MAST SERVICES

Storage 2021-2022

MAST STORAGE OPTIONS: **Store boat with mast up.** This is the most cost effective. Larsen recommends removal of the Mast Head Instruments for the winter months. See our Winter Protection Package below.

Have mast removed and stored in our dedicated mast storage building for maximum protection.

Have mast removed and stored on deck.

This saves a few dollars. This option is only available for boats up to 35 feet with a requirement that the mast does not extend more than 2 feet over each end of the boat. Support horses are provided where needed and mast is secured to boat. See the attached Mast Rate Sheet for pricing on these services.

SAILS NEED TO BE REMOVED FOR THE ABOVE SERVICES EITHER BY OWNER OR LARSEN MARINE

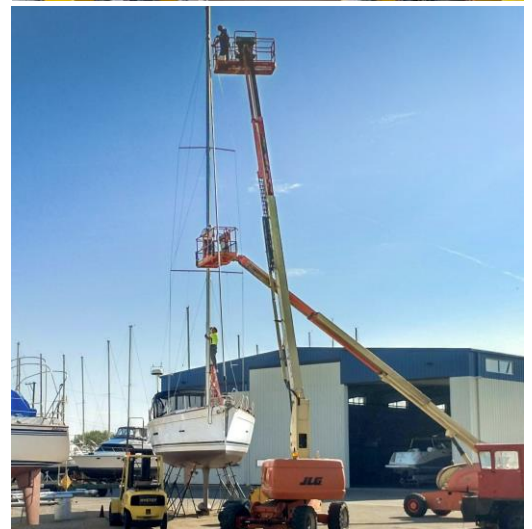

SAILS AND COVER REMOVAL SERVICE:

Larsen Marine prefers that the Owners remove their own sails as our Riggers have limited time available to provide this service. We have a paved area and a grass area by our boat slips where you can spread out your sails. For those that would like assistance, Larsen riggers can remove your Sails and/or Covers, fold and store them in the cabin. Please advise us if you also have a need for Sail Repair.

Rates by Boat Length

Up to 29 feet	\$140 per sail
30 to 34 feet	\$160 per sail
35 to 39 feet	\$180 per sail
40 to 44 feet	\$210 per sail
45 to 49 feet	\$240 per sail
50 to 54 feet	\$280 per sail
55 to 60 feet	\$310 per sail

SAIL REPAIR SERVICES BY SAIL LOFT:

Sails requiring repair need to be removed from boat and brought into our boat showroom. Sails must be tagged and a work order written with loft information. See Lori in our Boat Sales Department for this service. When the Sails are returned they will be stored in our heated showroom. Fee for this service is **\$120**, plus loft charges. See our "Sail Services" order form.

MAST UP WINTER PROTECTION PACKAGE:

Remove mast head wind instruments and windex, place in cabin. Install equipment in spring upon launch. Lubricate mast head sheaves, visual inspection of upper mast. **\$180** Price includes, labor, materials and use of man lift.

HALYARD PROTECTION:

We tie your halyards away from the mast to prevent them from beating against the mast during winter months, then remove the ties upon launch. **\$90** plus parts.
