## 2021 Shrink Wrap/Covers

Includes all Labor & Material

**Rates shown below** are calculated per square foot, with the boat LOA and beam being the same dimensions as used for storage calculations on the winter storage contract. (Prices have increased this season due to a significant increase in material costs). **Included** with the shrink wrap cover that extends over the hull sides is a **zippered access door and interior mildew protection** as well as **monitoring during the winter storage season** in which it was installed. The Environmental/Disposal charge covers the shrink wrap removal and disposal cost.

Bimini tops, enclosures, sails, dodgers and antennas must be removed prior to the installation of the winter cover. **When not removed by the owner, Larsen Marine will bill additional for this service.** Shrink Wrap covers are not recommend for painted hulls.
